Statement for Account # XXX-XXXXXX

Required Minimum Distribution (RMD)			
RMD Amount	RMD Due Date*	RMD Amount Taken	RMD Amount Remaining
\$6,417.89	12/31/2017	\$6,417.89	-

*If you turned 70 1/2 in 2015 or before, you will need to withdraw your 2017 RMD by December 31, 2017. Our calculations are based on the IRS' Uniform Lifetime table and on your account value at the end of the last year. If your spouse is listed as your 100% primary beneficiary and is greater than 10 years younger than you, our calculation is based upon the Joint Lifetime table and your account value at the end of last year. Distributions scheduled for a future date are not factored in the above figures. Failure to fully satisfy your RMD may result in a 50% IRS penalty on the amount not satisfied.

If you have set up a systematic RMD distribution, please have funds available prior to the date of the scheduled distribution.

Annual Margin Disclosure										
Securities purchased on margin are the firm's collateral for the loan to you. If the securities in your account decline in value, so does the value of the collateral supporting your loan. As a result, the firm can take action, such as issuing a margin call and/or selling securities or other assets in any of your accounts held with TD AMERITRADE, in order to maintain the required equity in the account.										
It is important that you fully understand the risks involved in trading securities on margin: You can lose more funds than you deposit in the margin account. The firm can force the sale of securities or other assets in your account(s). The firm can sell your securities or other assets without contacting you. You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call. The firm can increase its "house" maintenance margin requirements at any time and is not required to provide you advance written notice. You are not entitled to an extension of time on a margin call.
